

Control Your Growth Maximize Capital

What is it going to take to finance your next acquisition? Your expansion capital needs? Your turnaround and recovery investment?

Finance your growth objective with C-Bay's Capital Resource Service and have more choices. With C-Bay's open architecture, you can select financing from more sources than any commercial bank or financial services company can offer!

Take control of the four critical factors that can make (or break) your financing program:

1. Analyze your goals and quantify the risk
2. Agree to the strategy for managing risk, and write the Financing Program Plan.
3. Select the *most qualified* capital resource
4. Monitor results, and manage change.

C-Bay can solve your objectives with financing provided by the top capital resources in the U.S. We specialize in underwriting for growing companies in many industries:

- ◆ Transportation
- ◆ Specialty Automotive
- ◆ Food & Beverage
- ◆ Manufacturing
- ◆ Construction
- ◆ Financial Services
- ◆ Real Estate
- ◆ Technology
- ◆ Hospitality

The jobs of your business broker and your investment banker end when the financing is in place. C-Bay stays with you to manage change and keep the promise of your financing plan.

We are pro-active. We will follow up with our analysis of your trends and our recommendations as often as you wish.

Call or contact Chesapeake Bay Associates today for details on how to get financed!
